

Pedigree of North of Northwam of County York
 This pedigree was compiled by Richard Francis Northwam from materials collected from the Court Rolls of the Manor of Wakefield, the Registers of the Parish Church of Halifax and from the B.R.C. & the Great Northern Register at York.
 Up to 1525 the Northwams would be mostly buried in Halifax, but afterwards at City where a Chapel was founded about the time it was not until the middle of the sixteenth century? I verify that the family began to move from the Halifax district, but in 1525 there was only one Northwam remaining there.
